

LEIBNIZ
FORSCHUNGSINSTITUT
FÜR MOLEKULARE
PHARMAKOLOGIE

The Leibniz-Forschungsinstitut für Molekulare Pharmakologie belongs to the „Forschungsverbund Berlin e. V. (FVB)“. The FVB is an institution of eight natural sciences research institutes in Berlin funded by the Federal Republic of Germany and the association of its federal states. The research institutes are members of the Leibniz association.

In the department of **Molecular Biophysics** is available a position for a

Technical Assistant (m/f)

(Ref. 24/2017)

The position can be part-time for **18 months** or full-time for a shorter period. The starting date is **as soon as possible**.

Job description:

The successful candidate will be responsible for: i) isolation of plasmid DNA, ii) expression and purification of recombinant proteins from *E.Coli* cells and iii) *in-vitro* reconstitution of nucleosome core particles to be used for functional and structural studies. For more info: Liokatis et al. Angew. Chem. Int. Ed. Engl. 2016,55(29):8262-5

Requirements:

Applicant should have obtained training as a lab technical assistant, with very good practical knowledge of recombinant DNA technology. Good knowledge of English and excellent communication skills are a strong requirement.

The candidate must be also highly motivated, self-driven, and able to work both independently and in a research team.

For more information please contact:

Dr. Stamatios Liokatis; E-Mail: liokatis@fmp-berlin.de, Phone: 030 - 94793 275

Homepage FMP: <http://www.fmp-berlin.de>

Salaries will be based on TVöD. In 2013 the institute has been awarded the certificate of the audit beruf und familie as family-friendly employer. We offer equal opportunities regardless of gender and welcome applications of disabled candidates. They will be preferred in case of equal qualification.

Please address your electronic application to **Dr. Stamatios Liokatis (liokatis@fmp-berlin.de)** until the **30. September 2017**.
